DEPARTMENT OF INFORMATION SYSTEMS ENGINEERING

SCHOOL OF ENGINEERING

Atılım Awaits You!

If you are into the disciplines of informatics and management, our department is ideal for you!

- Acting as a bridge between the disciplines of management and computer sciences, our department is an academic and professional discipline which follows data collection, utilization, storage, distribution, processing and management processes and modern technologies.

- Aim of the department is to raise engineers who are educated in an advanced technology-supported environment, capable of learning and searching independently, technologically well-qualified and also sensitive to social issues.

- If you are into the disciplines of informatics and management, our department is ideal for you!

Choose ATILIM for Information Systems Engineering!

- Interdisciplinary English curriculum that blends access and transformation of knowledge with business, industry, and computer science

- Supports theory with practice at
  - Information Systems Laboratory
  - Information and Space Technologies Research and Application Laboratory

- Researcher and competent faculty members

- Industry-university connection by means of Cooperative Education Program*

*Cooperative Education combines higher education with business life, and by this means, equips students with both academic knowledge and work experience.
