Atılım  
Awaits You!

## If you feel excited about making your creative ideas into products...

- Our department raises creative, entrepreneurial, innovative, nationally and internationally competitive industrial designers who can work in the industry and related sectors, design the products by considering user, producer and market expectations and social and environmental values.
- Courses such as ergonomics, materials, production methods, technical and three-dimensional drawing are carried out in interaction with qualified academic staff and professional designers. This approach develops students' skills such as research on product design processes, strategic goal setting, original concept development, new technology and mastery of production processes.
- If you desire to become a discoverer, broad thinking, inquiring, problem solving and decision making industrial designer, this department is ideal for you!

### Choose ATILIM for Industrial Design!

- Awards granted in national and international design contests
- Member of World Design Organization since 2017
- Patent, utility model and design registration applications, research projects carried out with ARGEDA Technology Transfer Office
- Faculty consisting of both competent academicians and leading professionals
- Opportunity to take the first step in professional life as a student thanks to university-industry cooperation
