**Atılım  
Awaits You!**

## Our Purpose

- We aim to train engineers able to take aerospace technologies to extremes, convert their skills and know-hows into products of advanced technology, and exercise a culture that promotes innovation and team work.

## Perks of Atilim

- A curriculum devised with the current needs of the Aerospace sector in mind, as well as education in English
- A hangar at Esenboğa Airport, along with the aircraft allocated for training and practice
- Hands-on training

- The chance to fly our own aircraft
- A strong, experienced academic staff
- The chance to practically design and develop prototype aircraft with laboratory sessions and projects
- The chance to take on projects in collaboration with companies from the Defense Industry, and long-term internship opportunities
- Benefiting from the current infrastructure of our School of Civil Aviation
