**Atılım
Awaits You!**

We are aiming to graduate internationally-favorable nurses...

- The nursing profession focuses on protection and empowerment individual, family and community life through health services and takes a role in the preparation and implementation of health policies.
- Nursing, which is a profession holds a freedom of movement and working opportunity in Europe, is a health discipline combining the science and the art, providing care to meet the health needs of individuals.
- The aim of the department is to train pioneer nurses who lead future of the profession, offer integrated care considering moral and ethical values and carry out health education and practices in parallel with international standards and technological developments thanks to our globally known and appraised academic staff.
