Atılım
Awaits You!

If you feel excited about designing nature and human-friendly aesthetic venues...

- Our field designs creative and unique interiors with high quality of life, by apprising and interpreting its user group's comfort and aesthetic perception in the context of physical, psychological, ergonomic and sociological properties, economic conditions and cultural values.
- The aim of the department is to educate interior architects and environmental designers who can produce creative and original approaches in fields of art and design, design interiors with high quality of life, and improve contemporary and alternating solution to current problems, who are environmentally conscious, respectful to ethical values, responsible, having a researcher approach.
- If you are into designing feeling and living venues, our department is ideal for you!

Choose ATILIM for Interior Architecture and Environmental Design!

- Dynamic faculty known for their prestigious projects in the sector
- Opportunity to learn by practice in Acoustics and Light & Color Laboratories
- 4 computer labs accommodating 110 students, and design workshops
- Opportunity to gain professional experience as a student via Cooperative Education Program*
- Experience about the expectations and conditions of professional life with compulsory site, workshop and office internships
- Opportunity to benefit from the advantages of IFI sources and network thanks to our IFI membership

*Cooperative Education combines higher education with business life, and by this means, equips students with both academic knowledge and work experience.

*IFI: As the only international federation organization for interior architecture/design organizations, it is a global forum to share and develop knowledge and experience in education, research and practice around the world.
