**Atılım
Awaits You!**

If you desire to build your future on a strong foundation, our department is ideal for you!

- Civil engineering, which is one of the oldest professions in the history of humanity, is an engineering discipline related to the planning, design, construction and inspection of all kinds of services and industrial structures such as buildings, dams, airports, bridges, roads, ports, sewers, water networks.
- The purpose of our department is to enable our students to gain necessary knowledge and skills in the scientific and technical areas associated with the practice of civil engineering, and provide them with an educational environment that enables their preparation as self-confident engineers who practice their profession at the highest standards with a strong sense of ethics.
- If you desire to be a part of this deep-rooted profession, our department is ideal for you!

Job Opportunities

- You may work in construction sites of buildings, dams, bridges, highways etc.
- Relevant departments of ministries and municipalities
- Factory, power plant or airport construction projects
- Project and construction inspection companies
- Construction departments of big companies, or establish your own company.

Choose ATILIM for Civil Engineering!

- Practice and project-based English curriculum
- The first civil engineering department of foundation universities accredited by MUDEK* (6 years)
- The first and only civil engineering department where students carry out reinforced concrete beam design, production and strength tests in 7 laboratories established in the light of learning by practice principle
- The first and only civil engineering department in Turkey granted right to exhibit "Educational Steel Sculpture" by American Institute of Steel Construction
- Technical trips to big construction projects
- Industry-university connection by means of Cooperative Education Program*

*MUDEK: Association for Evaluation and Accreditation of Engineering Programs

*Cooperative Education combines higher education with business life, and by this means, equips students with both academic knowledge and work experience.
