

### What is TOEFL?

TOEFL, accepted all around the world, evaluates English speaking, listening, writing and reading skills.

### How to apply?

By visiting [www.ets.org](http://www.ets.org), you may determine exam date and center before application.

### Exam Procedure

TOEFL procedures start with a photo shoot of the candidates coming to the center. Test booths of the candidates are determined by the system. Materials to be used during the exam (paper, pen, etc.) are provided by our center. The system will be accessible once all exam takers are ready and they are asked to read all instructions carefully before starting the exam. Admins are appointed to the exam halls on the basis of the number of exam takers. Reading, writing, listening and speaking skills are tested in separate sections. Each skill test is given a certain period of time and the exam takes about 270 minutes with the breaks. When the time is up, the screens automatically turn off. Assessment and grading is done by ETS, a US-based company.
