**Atılım
Awaits You!**

If you dream about being the wanted engineer of the world of software...

- Department of Software Engineering trains software specialists who can take part in the development of large-scale software projects (requirements analysis, design, coding, testing) in line with the requirements of the software industry.
- The department aims to train qualified individuals who can produce effective solutions by using engineering approaches in the software processes.
- If you want to combine theoretical knowledge with practice throughout your higher education in order to become a favored software engineer, our department is ideal for you.

Choose ATILIM for Software Engineering!

- Practice and project-based English curriculum
- Researcher and competent faculty members
- Among the top 7 university/department in terms of High Quality and Volume in the field of Software Technologies in 2016 TÜBITAK University Competency Analysis
- The first software engineering department in Ankara, the first software engineering department accredited by MUDEK for 5 years
- Software Development and Research Laboratory, MobiLab, SimLab, Big Data in Cloud and Training Laboratory
- Industry - university connection by means of Cooperative Education Program*

*MUDEK: Association for Evaluation and Accreditation of Engineering Programs

*Cooperative Education combines higher education with business life, and by this means, equips students with both academic knowledge and work experience.
