- Upon the examination the jury, without the presence of the audience, gives the decision of acceptance, rejection or correction by simple majority vote at least. The jury's decision is submitted to the Graduate School by concerned department as an attachment to the report. The student whose thesis is accepted is evaluated to be successful. The student whose thesis is rejected is dismissed from the University. Master's students whose thesis needs to be corrected make the necessary amendments and re-defends it before the same jury again within three months at the latest. Doctoral students have a maximum of six months for revisions and second defense. The student whose thesis is rejected in this defense again is dismissed from the University. Upon the request of master's student whose thesis is rejected, s/he is awarded with non-thesis master degree on the condition that s/he meet the requirements of non-thesis master program such as course credit load and project writing. Doctoral students who fail to pass doctoral thesis examination will be granted a non-thesis master's degree upon their request in accordance with the 7th paragraph of the Article 30. Doctoral students must register for extended semesters.
